Arabia responded to
COVID-19

Eid Greetings From Our Leadership

Caring, sharing and striving to do what we can to help one another. We protect our families and those of our colleagues. Let's look at the near future and understand that only the strong and brave will win. Our strength is by being together and caring for one another. **Have a blessed Eid.**

Mr. Mishal Kanoo,
Chairman of Kanoo Group

Our Amazing Projects

While we are proud of ever thing we do, these projects showcase our versatility and skill.

Dubai Metro Expansion

This has been an ongoing project for us and we are delighted to be a part of creating Dubai's very efficient transportation eco-system.

Hatta Hydro Pump Power Plant

The project involves the construction of a hydro storage power station with a storage capacity of approximately 2,500 MWh in Hatta, Dubai, United Arab Emirates. It is part of DEWA's efforts to diversify the energy mix and enhance energy storage technologies. This supports the Dubai Clean Energy Strategy 2050

Expo 2020

Our AWP's were used to help with maintenance of canopies at the Expo 2020 site.

 **Eid Mubarak**

M.D'S Message for Eid al-Fitr

It is our combined responsibility to do everything we can to help contain this pandemic and look after the welfare of our family, friends and colleagues. We will all look back in pride very soon, when we have overcome what may have seemed impossible odds at the time. We must continue to work together during these challenging times and remember we will emerge from it stronger.

Thank you to our customers for their continued support and the dedicated motivated efforts of the Johnson Arabia team to ensure we continue to provide the very best support and essential service in the business.

Please continue your passionate dedicated efforts to protect one another and our company.

One team, One family.

On behalf of the management may I wish you and your families the very best of health and prosperity during the special occasion of Eid al Fitr.

Eid Mubarak

Mr. Martin Kirby,
M.D Johnson Arabia

Spider Cranes

Johnson Arabia launches its fleet of spider cranes in the Middle East just before Eid.

These spider cranes will enable companies to continue work on large scale projects and fast track certain challenging lifting and placement operations. The spider mini crane series will also work in conjunction with our existing line of cranes equipment which makes it an easy option for companies to choose from. This along with the best technical support in the business makes Johnson Arabia an easy option to choose for a company's lifting needs.

This investment is part of the vision to innovate and constantly bring new concepts to the market and just the start of the proposed expansion planned for the business. At Johnson Arabia we demand the very best in reliability, performance but above all safety and cost effectiveness from our long-term partners to ensure the very best support can always be offered to our clients says M.D. Martin Kirby

These cranes set the standard with market leading performance offering up to 6 crane models with tonnage from 1 – 8 ton, maximum lifting height of 25 m and maximum working radius of 18 m. The pick & carry feature makes these cranes a logical choice for customers who cover a wide range of applications, from construction work to natural resource development, the applications for mini cranes are limitless.

Our Spider cranes were recently used to erect the VOX outdoor theaters in *Mall of the Emirates*.

The drive-in cinema is making a comeback, and a large screen has been assembled in the shopping centers upper parking lot, on level 3, underneath Ski Dubai's slope. movie goers can purchase their tickets for their cars and enjoy.

The versatility of our spider cranes is endless. From entertainment to heavy industry we have it all covered.

 Eid Mubarak

Our response to COVID -19

Johnson Arabia is committed to protecting our workforce, whilst also ensuring business continuity. In order to achieve this, Johnson Arabia has instituted Work From Home measures since the beginning of the pandemic, and continues to do so even with the ease in restrictions where we allow, on a rotational basis, 30% of the workforce to be present at the office. Employees have also been equipped with laptops to ensure access to our company's systems.

In addition, all skilled labor has been provided with protective gear, and office-wide cleaning and sanitation is conducted on a weekly basis to ensure the safety of our staff. We have also put up educational posts to inform everyone how they could take precautionary measures both at work and at home, and every employee is encouraged to wear protective gear at all times when they are in the office.

"That which does not kill us makes us stronger."— Friedrich Nietzsche

wear a mask and keep a distance of 2 meters between other people
